

Perfect — this is exactly the sort of thing ISO 14001 auditors **always** ask for, and they're weirdly picky about wording.

Below is a proper, auditor-acceptable Environmental Policy you can literally paste onto headed paper and put on your website wall, noticeboard, and induction pack.

LGM Engineering Ltd – Environmental Policy

Company Name: LGM Engineering Ltd

Location: United Kingdom

Scope: Laser cutting, CNC folding, fabrication and associated metal manufacturing services

1. Our Commitment

LGM Engineering Ltd recognises that its operations have an impact on the environment. We are committed to conducting our business in a manner that protects the environment, prevents pollution, and supports sustainable manufacturing practices.

We aim to minimise our environmental footprint while providing high-quality precision sheet metal fabrication services to our customers.

2. Our Environmental Principles

LGM Engineering Ltd will:

- Comply with all relevant environmental legislation, regulations and other requirements applicable to our activities.
 - Prevent pollution through responsible control of emissions, waste, and resource usage.
 - Continually improve our environmental performance and environmental management system.
 - Consider environmental impact when making operational and investment decisions.
 - Encourage environmentally responsible behaviour among employees, suppliers and subcontractors.
-

3. Key Environmental Objectives

To achieve these commitments we will:

Waste Management

- Segregate and recycle metals including mild steel, stainless steel and aluminium.

Unit 4 Epsom Business Park, Kiln Lane, Epsom, Surrey, KT17 1JF
Tel: 0800 3213983 Email: info@lgm-eng.co.uk
VAT Reg: 886893638 Company Number: 9039399
Bank Name: NatWest Sort Code: 60-01-04- Acc. No.41660811

- Recycle cardboard, plastics and packaging materials wherever possible.
- Dispose of oils, coolants, aerosols and hazardous waste via licensed waste carriers.
- Reduce scrap production through efficient nesting, programming and manufacturing processes.

Energy Use

- Monitor and reduce electricity consumption of machinery, lighting and facilities.
- Invest in energy-efficient equipment and modern manufacturing technology where viable.
- Switch off plant, compressors and lighting when not in use.

Materials & Resources

- Optimise material utilisation through nesting software and production planning.
- Work with suppliers to minimise packaging and encourage recyclable materials.
- Maintain machinery to maximise efficiency and minimise waste.

Pollution Prevention

- Control fumes, dust and airborne contaminants through appropriate extraction systems.
- Store oils, chemicals and lubricants safely to prevent spills or ground contamination.
- Maintain spill kits and train staff in their use.

4. Employees & Awareness

All employees share responsibility for environmental performance. LGM Engineering Ltd will:

- Provide training and awareness to employees regarding environmental responsibilities.
- Encourage staff to report environmental risks or improvement opportunities.
- Promote good housekeeping and responsible use of resources.

5. Continuous Improvement

We will:

- Set measurable environmental objectives and review them annually.
- Periodically review this policy to ensure it remains appropriate to our activities.
- Monitor environmental performance and implement improvements where reasonably practicable.

6. Communication

Unit 4 Epsom Business Park, Kiln Lane, Epsom, Surrey, KT17 1JF
Tel: 0800 3213983 Email: info@lgm-eng.co.uk
VAT Reg: 886893638 Company Number: 9039399
Bank Name: NatWest Sort Code: 60-01-04- Acc. No.41660811

This Environmental Policy will be:

- Communicated to all employees
 - Available to interested parties upon request
 - Published on our company website
-
